REMARKS

Applicants have amended claims 1, 20 and 21 according to the rejection in the Office Action. Applicants contend that this overcomes the rejection under 35 U.S.C. §112. Reconsideration is requested.

Applicants traverse the rejection of the claims under 35 U.S.C. §102(b) over Henderson. Henderson does not teach or suggest processing signals to form a parallel image. Accordingly, it is improper as a matter of law to say that Henderson anticipates the claimed invention. Reconsideration is requested.

Respectfully submitted,
